

Osprey 6

Pre-Engineered Sixplex for Maximum Land Efficiency

2026

About Osprey 6

The IGV Osprey 6 is the highest-yield model in the IGV range, designed to make the best use of available land while still delivering sizable, comfortable homes. With six self-contained residences in one efficient building, the Osprey is ideal for infill sites, community housing, workforce housing, and multi-site development where density, speed, and long-term value are key.

Each home is planned to support everyday livability, with open-concept layouts, quality finishes, efficient appliances, and practical separation between units. For developers, communities, and property owners, the Osprey 6 delivers strong income and housing potential without sacrificing the quality, comfort, or resident experience that define the IGV building range.

Renderings are conceptual only and subject to change. Materials, colors, and finishes shown are for reference and may vary with actual construction. Refer to final contract documents and specifications for exact selections.

THE OSPREY 6

PRE-ENGINEERED SIXPLEX FOR MAXIMUM LAND EFFICIENCY

The Osprey 6 is the highest-yield model in the IGV range, designed to make the best use of available land without compromising livability. With six sizable homes, efficient layouts, quality finishes, and high-performing appliances, it gives developers a practical way to increase density while still delivering homes residents will want to live in.

Pre-engineered by IGV for scalable delivery, the Osprey 6 is ideal for infill, community housing, and multi-site development where yield, speed, and construction predictability are key.

- ✓ Six-home configuration for the highest yield in the model range
- ✓ Strong land-use efficiency for infill and multi-site development
- ✓ Sizable units designed to maintain comfort and livability
- ✓ Quality finishes and appliances included across all homes
- ✓ Efficient layouts support strong resident appeal and long-term value
- ✓ Pre-engineered for faster delivery, repeatable construction, and scalable growth

Design Palettes	West Coast Contemporary / Modern Farmhouse / Mid Century Modern
Standard Appliance Package	Included across all models

Specification Note

Square footages and selections are shown for concept presentation and should be coordinated with final drawing packages.

DESIGN PALETTE

West Coast Contemporary

Draws inspiration from the natural landscape, combining clean lines, warm materials, and a calm, light-filled palette that reflects coastal and forested surroundings.

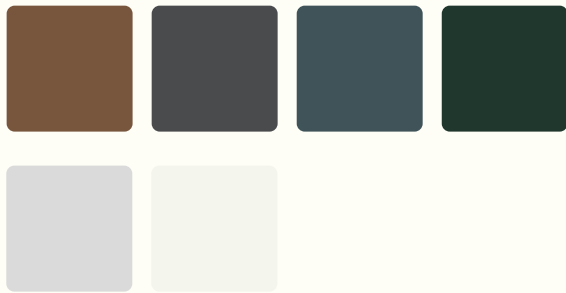

Any sketches, renderings, graphic materials, plans and depictions are conceptual only and are for the convenience of reference. They should not be relied upon as representations, express or implied, of the final detail of any units, buildings, projects, land, etc. IGV expressly reserves the right to make modifications, revisions, and changes it deems desirable in its sole and absolute discretion. All depictions of appliances, counters, furniture, finishes, lighting, plumbing fixtures, floor coverings and other matters of detail are conceptual only and are not necessarily included in each unit, building, project, land, etc. Consult your Purchase Agreement and the Documents for the items included with the units, buildings, projects, land, etc. Dimensions and square footage are approximate and may vary with actual construction.

West Coast Contemporary

STYLE OVERVIEW

West Coast Contemporary is inspired by British Columbia's forests, coastline, and mountains. It emphasizes connection to nature, natural materials, and relaxed modern forms. This style feels premium yet grounded - ideal for homeowners who value light, views, and a calm indoor-outdoor lifestyle.

COLOR PALETTE & DESIGN INSPIRATION

TEXTURES & MATERIALS

- Natural elements including timber, stone or concrete accents
- Wood accents, gunmetal grey fixtures

ARCHITECTURAL ELEMENTS

Roof

The Osprey uses Mystique asphalt shingles in two tone black, a durable and reliable roofing choice that suits Canadian climates and complements the home's clean, modern exterior.

Eaves, Soffits & Facia

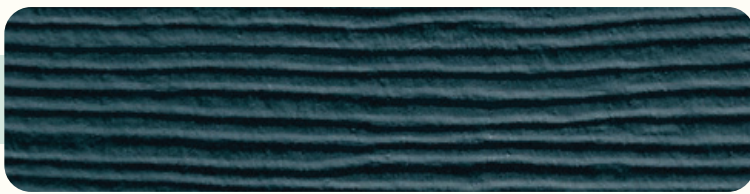

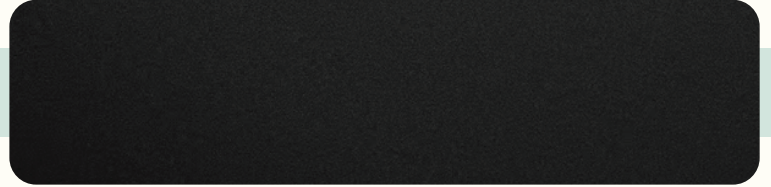

Red Western Cedar treated timber – connecting directly to nature and softening the darker exterior elements of the West Coast design styling.

Architectural Elements

Gutters & Down Spouts

Eave troughs are the continuous formed type and downspouts leading from eaves troughs will be positioned so as to maximize drainage while minimizing the impact on the exterior aesthetic. Color will be black in all design styles.

Exterior Walls

External walls are built using structural insulated panels (SIPs) for strength and energy efficiency, and finished with James Hardie Cedar mill cement board cladding, with colours selected to suit each design style for a durable, low-maintenance exterior. West Coast Contemporary – Deep Ocean

Stone

Natural stone will be used as a front feature accent with color selected to suit each design style. West Coast Contemporary – Black / Charcoal.

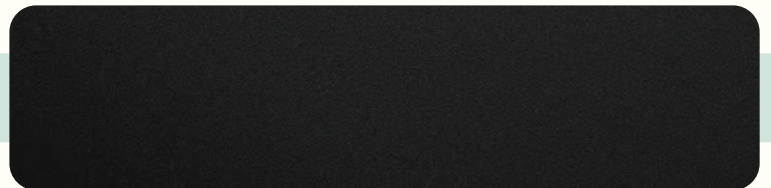

Columns, Inserts & Trim

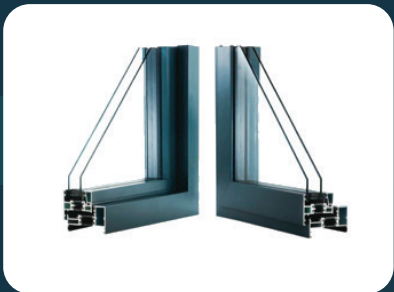

Columns, decorative inserts and trim are in natural timber, with tones selected to complement each design style and add warmth and character to the home's exterior. Painted timber in Benjamin Moore Dove White (OC-17) OR Timber Douglas Fir (black or charred).

Doors & Windows

Exterior doors, including garage doors, and their associated hardware have been selected to complement and enhance the design style. Hardware materials include the following - gunmetal grey, black and brushed brass.

Architectural Elements

Windows & Sliding Doors

Frames use high-quality uPVC in black finish, reinforced internally with aluminium for added strength and durability. Glazing is double-pane insulated glass unit with Low-E coating and argon gas fill for improved energy efficiency. Both panes are tempered clear glass for safety.

Balconies & Decks

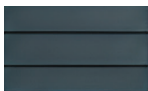

The underside of cantilevered and/or exposed balconies will be finished to match the soffit – Western Red Cedar. Flooring will be treated bamboo in a neutral color to suit each design style. Railings style are square design and painted in black. Balcony glazing is the same as windows and doors.

Exterior Lighting

Exterior lighting features black up-and-down wall sconces, providing practical illumination while enhancing the home's modern architectural lines.

Exterior Color Summary (West Coast Contemporary)

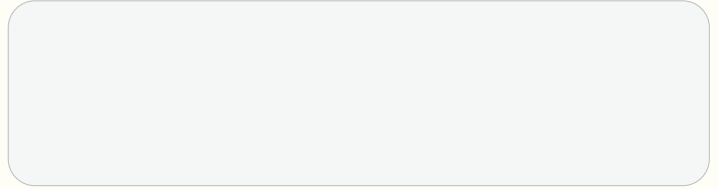

Exterior Siding James Hardie Cedarmill	Eaves, Soffit, Fascia, Columns, Inserts & Trims	Gutters & Down Spouts	Natural Stacker Stone	Doors & Windows	Lighting	Hardware
						
Deep Ocean	Red Western Cedar	Black	Black / Charcoal	Black	Black	Gunmetal Grey

Interior Elements

Ceiling, Walls, Baseboards, Trim & Doors

The ceilings will be painted in Benjamin Moore Ceiling White.

Interior walls, baseboards, trims, and doors are finished in Benjamin Moore Oxford White(869), creating a bright, neutral backdrop that complements each design style and enhances natural light throughout the home.

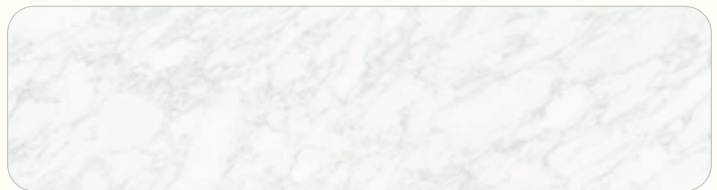

Flooring

Throughout the main living areas, ultra high-quality oak-finish laminate flooring creates a warm, durable, and elevated foundation for everyday living. In the bedrooms, heavyweight, soft-touch carpeting adds comfort underfoot and complements each design palette, bringing a refined sense of warmth and texture throughout the home.

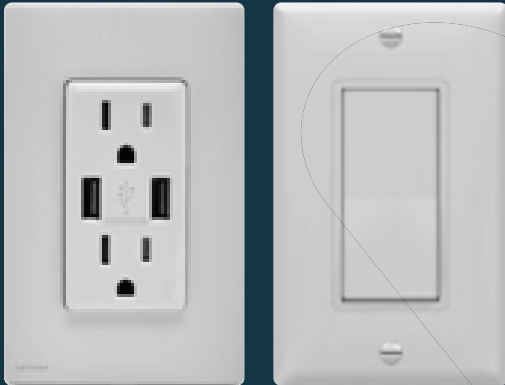

Cabinetry & Countertops

Kitchen and bathroom millwork is coordinated throughout the home, featuring engineered light oak veneer cabinetry with durable wrapped plywood carcasses. Quartz Carrara marble-look countertops and splashbacks with a 20 mm square edge provide a refined, low-maintenance finish that complements the overall interior palette.

Interior Elements

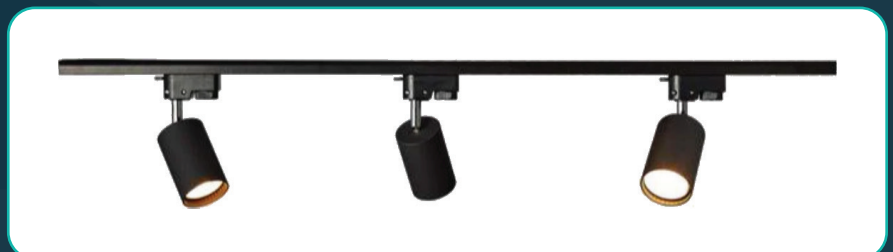

FIXTURES & FITTINGS

Fixtures and fittings throughout the Osprey are selected to a high standard, using quality international brands and durable metal finishes. Colours are coordinated to each design style and for West Coast Contemporary are Gunmetal Grey with all fittings, including faucets, light switches and receptacles are matched to create a cohesive and consistent interior finish.

LIGHTING: Interior lighting includes LED pot lights, track lighting, track pendants, and vanity wall sconces, with designs and finishes selected to suit each interior style and create a cohesive, well-balanced lighting scheme throughout the home.

For West Coast Contemporary these items include Smoke Glass Grey Track Pendants, 3 smaller for Kitchen, Modern Vanity Wall.

Interior Elements

ENSUITE: single hole faucet, white Porcelain drop-in single hole sink, x2 for double vanity, white Siphonic one piece toilet, Rectangular alcove base, with centre chrome grid drain, shower kit Includes: handheld on a sidebar, rail head dual function valve, 10mm sliding glass door, chrome finish: double robe hooks and matching toilet roll holder.

BATHROOM: Single hole faucet, white Porcelain drop-in single hole sink, for single vanity, white Siphonic one piece toilet, rectangular white one-piece skirt bathtub, shower kit Includes: handheld on a sidebar, rail head dual function valve and bath tap, 10mm fixed glass screen, chrome finish: double robe hooks and matching toilet roll holder.

KITCHEN: Single hole high arc pull down faucet, Double Bowl Undermount sink.

What's Included

- Stainless steel kitchen appliance suite
- Coordinated laundry pair
- Consistent package across all palettes
- Selected for modern performance and daily living

Optional Upgrade Paths

- Premium appliance upgrade
- FF&E package
- Heat pump and solar preparation

Additional Options

Pot light upgrade

Upgrade from standard strip lighting to recessed pot lights for a cleaner ceiling line and softer, more refined lighting throughout the home.

FF&E package

Optional furniture, fixtures, and equipment package designed to support a cohesive, move-in-ready interior.

Solar panels

Provision for a future solar panel system, including SmartCore rough-in to support easier integration at a later stage.

Orca Water monitoring

Upgrade to ORCA water monitoring for real-time visibility into water use, early leak detection, and improved efficiency.

Heat pump rough in

Provision for a future heat pump system, including equipment location and refrigerant line rough-in for later installation.

Fisher & Paykel appliance upgrade

Upgrade to a premium Fisher & Paykel appliance package for elevated kitchen performance, clean lines, and refined finishes.

Rainwater harvesting

Provision for a future rainwater harvesting system to support reduced water use and long-term sustainability.

Samsung appliance upgrade

Upgrade to a premium Samsung appliance package offering reliable performance, modern design, and durable finishes.
